And so, these five young men vowed to meet again and headed for Tokyo. They learned to survive among the crushing waves of people passing through valleys between the great skyscrapers of the capital. And one year later, they met again, on a day of cherry blossoms in full bloom.

And so every year when the cherry blossoms bloomed, these old friends would gather and speak of baseball, buffets, and how to tame young wives. Their youth and zeal for one-an-ings was as hard and unyielding as steel. And yet among the group, there was one man whose particular interests and laid-back air earned him the derisive nickname "Samsen" from his friends. Three years passed, and the boys had become men. Men of Tokyo. In April of their fourth year, they gathered again, like always.

Sign, Cafe— Art and Drawing

Now, I would like to say that they all continued drawing ero-manga and earning the praises of their youth... I not for a terrible happening that would soon befall them all.

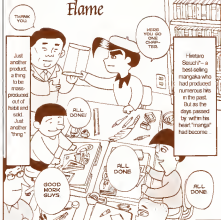

Year 2004... the **CHILD PORNOGRAPHY LAW** was created to make it illegal to portray scenes of sexuality or even naked women in all created art, including manga.

The artists were forced to go into major manga and though they all went on to massive success (annual earnings: 10M yen), they felt a great sense of loss and longing.

And what they would always remember was "Samson," the guy who only drew naked men and thus escaped the reach of the Child Pornography Law. They thought of him, drawing the same manga he always had; having the same position they all once held. They thought of him, and they cried.

He had 100 pages of work due within a week. It would have been an incredible grueling battle to complete even if all of his staff had been present.

It was a devastating slug, a battle with no hope of victory. The entire week until the deadlines passed in a blink, and though he had drawn and drawn without load or rest, he had only completed half of his work. But through this horrific trial, a fire began to burn within his soul, rekindling his love and passion for manga. As the second, then third week passed, he shunned all contact with the outside world, diving headfirst into his old, familiar haunts. His deadlines were far in the past, with no hope of the manga being in time for print, and yet he couldn't have cared a fig for the consequences.

Hideo Souichi was dead. But scattered on the floor around his cold, unmoving corpse—was a completed 100-page masterpiece, “Party Shot Get,” the last thing he had drawn with all his heart and soul in 10 years.

At Comike that year, one booth drew more attention than all the others. Once ignored by the publishers, “Party Shot Get” had been picked up by the assistants themselves in their secret memory. It was only 6,000 copies, but those 6,000 readers could feel the “Borne” Souichi had regained, a theme that kept off the page and danced, danced far beyond the dark, rose of the passing.

CHAPTER 2

Ambition

Dear friends,
 It's now been a full year since you left for Tokyo to
 become a mangaka. I've spent every week following
 the fruits of your professional labor in the manga
 magazine that gets delivered out to the country,
 knowing that you have forsaken sleep and health to
 achieve the popularity you've earned in this short
 time. I've graduated school now, and I will be
 coming to Tokyo in the spring. As it will be
 my first trip to the big city, I'm sure it
 will be frightening and dangerous,
but it will be all worth it to see
you once again.

I ran away then, ran to a train that would take me back home. When he told me that he would rather live as a manga-loving freak than as a normal man who would love me. I saw no reflection of myself in his eyes.

And 10 years later...

He was still drawing manga. Now a typical housewife living out in the country. I cannot help but wonder how I might have turned out. Had I chosen to stay in Tokyo and follow him in his awful but happy lifestyle.

Youth is a beautiful benign part of human life when every action comes brilliant heartfelt meaning. Having now become the mangaka he dreamt of being since a small child, he found himself intoxicated on the idea that his auspicious life choice was being showered with idolatry and joy from the entire world. But reality has a way of bringing the oblivious back to the earth with painful results.

Keep Hypocrisy away

Yet, ironically, it would be this enclosed confinement that would retain equilibrium to his tormented soul

CHAPTER 8
Almost 40

THIS WAS A LIE.

He was still an amateur, having never had anything published professionally.

Hoping to become a mangaka after graduating college, he took no job and lived on his parents' money (otherwise he would have no time for manga); he did not seek apprenticeship under an established artist (it would affect his art style); and he avoided dopamine orders (he terribly despised the otaku culture).

He simply holed himself up and drew by himself, and as his efforts were surely and steadfastly rebuffed, the time wasted on this pursuit soon approached **17 ENTIRE YEARS.**

17 years was more than enough time to save and plump the grossly-engorged ego within his heart. Already his mind had gone from the stage of fantasizing about "enjoying drawing manga" to fantasizing about "enjoying being a mangaka and receiving the praise of others."

All of the brain cells that should have been put to work thinking up story ideas were now being consumed in the futile pursuit of filling in the missing steps between his dreams and reality.

The audacious claim came from his bloated self-esteem buoyed by the high level of his sensei's excellent skill. It is a sad fact that working together, drinking together and speaking to one another as equals often creates the fallacy that one has the same virtues and gifts as the pioneer he follows. It is a very crucial point in everyone's life to avoid this pitfall but enough from me. Let's see what happens.

already has thoughts, words and performance relating to manga had become a complete and empty shell of his screen. Despite being stale and deserted, there was no one who could stop him downhill.

However this year would see a shocking incident completely foil Kannushi's out-of-control ego. Tenshi Yamada-sensei suddenly brought a conclusion to "Love Is a Slide Rule" and started a new manga, "MR. POOPEATER."

Let's start with the big picture

Tenshi Yamada was in fact a genius

His new scat manga was an improbable smash hit that shook the foundations of the industry, writing a new page in the history of manga to come

On the other hand, having lost his foundation, Hiroshi Kamekichi made a new start as a mangaka

He brought in a manga identical to Yamada-sensei's and won himself a smash! but mysteriously enough, he never got that smash hit and settled on producing various mediocre works over the years

If the "happiness" of a mangaka is determined by the level of satisfaction with which he completes his job, then he was unmistakably "happy." However, over time there are many ways in which mangaka happiness and human happiness can find themselves at odds (I think)

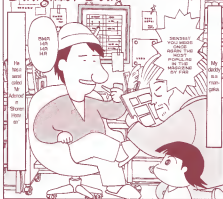

It was a dire, emotional plea from the master to the apprentice not to forsake his "happiness" as a mangaka for his "happiness" as a human being. Young Dorotaro returned home, feeling as if the warm flame nurturing his soul had been doused with icy water. However,

CHAPTER 8

Daughter Dear

Megumi Zazayama's popularity began to plummet in the spring of the 3rd year of his manga. By summer, he was scraping the bottom of the chart. In a hasty attempt to right his ship, he quickly cancelled "Mr. Adoncio" and started a new serial, whose historically abysmal performance succeeded in driving him from the magazine.

THIS HAPPENS ALL THE TIME.

In order to support his lifestyle, Meguru Zozayama had turned to drawing ero manga (and very graphic ero manga to boot). The author of this manga feels it's not such a big deal really, but for a young girl at an impressionable age, it is a harsh blow.

Either luck was on his side, or he was meant for this particular line of work, as Megumi Zatsuyama found solid (but not mega-hit) success as an ero-mangaka. This success continued through his daughter's high school career until the spring she moved on to college. When he died of a cerebral apoplexy.

When the novel boom hit, "Mr. Adachi" was released in a new format, and the royalties from that paved the way for mother and daughter. This was when Kato made the decision to trust her genealogy and follow the same path as her father.

Mangaka Under Fire

He was a character like those that existed in the golden age of the shounen magazines: a fiery editor brimming with determination and spirit, resurrected into the modern era. His enthusiasm and love for manga succeeded in exciting and moving Takeo Murya, a successful manga mainstay who had created multiple hits in his 10 years in the business.

But only for a moment.

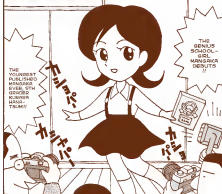

Overwhelmed and spit out by the battle of opinions, the author succumbed to his editors' lofty demands and "Mr. Gasshy" found massive success for about half a year. However, numerous incidents, stemming from the author's mental instability (sudden crying in public, incontinence, irregular pulse, self-mutilation) caused the serial to be cut from the magazine, and Meekimono was removed from his position.

Fear not dear readers
This story is fiction, through and through
Why do I say that?
The days of such hilarious editors are long in the past, my friends.
They died out years ago.

It's Great to Be Young

5 YEARS LATER...

Kurara Hanabusa was in high school. The "Genius Grade School Manga-ka" title was all in the past, and society had cruelly pigeonholed her into the "Well, anyone this age can draw manga like this" category.

YOUTH MEANS

It was simply a matter of companion. If she moved to an industry where everyone was old, she could still be the youngest on the block, for 10 or 20 more years.

The manga was all burned into ash, and of course Sabamori was never printed in the magazine. And thus the danger to their "friendship" was averted in the nick of time. Today, as always, they gather to speak of manga ideals, eat local ramen, study at nearby sketching courses, and live through their youth, second by second. And they lived happily ever after.

The Customer Is God

NOTE: "KOBUNSHI" IS AN OUTDATED SORTING OF "KOBUNSHI" WHICH WAS DONE WITH PURPOSE BY BARBAGOSA

NOTE: "Determined" is a word that has a lot of uses.

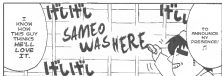

This was a generic (purely courtesy) letter of thanks sent back to the writers of *Museum Minutes*. A totally boring and plain letter printed up in the thousands, but as a measure of fan service the author himself would scribble a single line by hand at the end:

"Thanks for reading as always."

But this simple, measuring line would scramble our silly friend's brain (we suppose).

I'll avoid commenting on this

whether it was what they call the ninyo art of "switching places," or just a queer illusion played upon him by the stress of his work is unclear.

Six months later, Johnny Marijani received the revival boom treatment. His old works were reissued in a new format, and his work was reassessed by fans and critics. And with a new serial called "Ultra-Thick Man 2005," though in a smaller magazine, Johnny-sensei found himself busy once more.

Thank goodness.

It's been extremely difficult for me to draw this, but I hope it has pointed out that working as an assistant to an artist is a very perilous line of work that involves direct contact with the blackest, most private parts of their persona. Prospective assistants, be most wary.

Because outdoor defecation was such an important keyword to 'Mr. Moisture' the redrawing was a long and painful process. This revised version, created under a limited time frame, suffered from the loss of a unifying theme, but to Kamekazu, it was still a brilliant bit of work.

SO FAR

At 80 years of age
 Peji Hironaka's unexpected zeal
 for another serial shocked the manga world
 but the shock gradually morphed into interest and support.
 This was a man who was born to draw manga.
 This was a man who turned the profession itself into "art".
 This was a sage among mangaka.

As a matter of fact his debut work "Mr Warm 'n' Fuzzy" was a committee-designed project so Peij Hatanaka had never actually written an entire original chapter in his life.

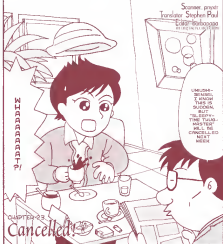

A mangaka's life is limited but the manga itself never ends. When mangaka reader and editor's souls are brought together, manga is blessed with the spirit of eternal life.

CHAPTER 23

Cancelled!

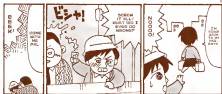

THE FOLLOWING IS AN ACTUAL, IRONCLAD LAW OF THE INDUSTRY:

A piece of work submitted to a contest wins a prize and is selected to become a serial. It conquers the #1 spot on the surveys, sells a million books, gets an animated TV program, and the author is experiencing smooth sailing the rest of the way **EVERYONE ELSE** who is a manga or prospective manga writer would do good to remember the following:

**"YOUR STORY WILL GET CANCELLED WITHOUT WARNING.
YOUR MAGAZINE WILL GO UNDER WITHOUT WARNING."**

The existence of "luck" is a very questionable logic if one looks at it logically. But there is no denying the fact that Goro Uemura's life looked like that of a man falling straight down a hill. Every well-meaning move backfired on him. Maybe there is something to this business. An energy of misfortune that cannot be explained or understood with science or common sense.

Afterword

This is a gag manga originating from that immortal classic of modern manga, the late Shintô Nagashima's "Cruel and Terrible Tales of Mangaka." I most presumptuously used this title as my book also deals with the dreams, trials and tribulations of young mangaka. I hope my cheap and cowardly tactics have not offended you. The first chapter, "Samson," is a direct parody of "Half-wit," the first chapter of Nagashima-sensei's work, but all of the others are created by me, Naoki Kerasawa, using characters in the style of original's make.

In the case that I parodied the faces in the original manga, I used them from the 3-volume edition from San Comics, and the older 2-volume Fushun Products edition, as well as "Puzzle" vi-2 (1972, Seirindō). I would like to use this opportunity to thank Shiro Nagashima-sensei. The mangaka of the world (myself included) continue to struggle and agonize as you once portrayed us. Alas.

And just to be sure, I want to make clear that all characters, mangaka, academics, editors and writers that appear within this book are works of fiction and have no relation to any existing persons.
